output control

service indicator

Accessories included
1 x inlet pipe,
1 x spray bar
outlet elbow,
EHEIM quality hose,
installation accessories,
pre-filter drip tray,
power supply unit
24V-DC.

Technical data

	2076	2078
Aquarium size up to approx.	400 l	700 l
Pump output approx.	1650 l/h	1850 l/h
Delivery head approx.	2.4 Hmax m	2.5 Hmax m
Power consumption	10-35 W	10-35 W
Canister volume	12.5 l	14.5 l
Filter volume	6.0 + 0.6 (pre-filter) l	8.0 + 0.6 (pre-filter) l
Dimensions H x W x D approx.	474x264x264 mm	534x264x264 mm
Art. No.	2076010	2078010
EAN	4011708 202111	4011708 202104
Pack dimensions HxWxD	51x33.5x27 cm	57x33.5x27 cm
Packing unit	16 piece	16 piece

- Large pre-filter ① for easy intermediate cleaning and extra long service life.
- New priming principle ②

The electronics – new intelligent functions at the push of a button!

output control

The water flow is increased / decreased at the push of a button. Display by LEDs.

constant flow

The selected flow rate is maintained automatically, adjusting for filter media blocking.

stream function

Electronically adjusted alternating flow like a wave effect.

service indicator

At the push of a button, the remaining time until the next cleaning interval is displayed by LEDs.

electronic error indicator

Electronic monitoring for problems.
